## HOW DOES THE DRAW WORK?

Every Saturday night on TV2 at 8pm, 6 Lotto balls and 1 bonus ball are drawn from the Lotto ball machine.

These are the **Lotto winning numbers**. The first 4 numbers are the Lotto Strike numbers. A serial number will also be drawn, which is the **Winning Wheel number**.

After the Lotto numbers have been drawn, the Powerball is drawn from the Powerball machine. If you have won any of the Lotto divisions and have that week's Powerball number on the same line you're a **Powerball winner**.

## HOW DO I KNOW IF I'VE WON?

Just watch the live Lotto draw on TV2 at 8pm, every Saturday.

Official results are also available at your Lotto shop, in many New Zealand papers, on teletext and by phoning 0900 90 900 (calls cost 99c per minute). Otherwise, you can visit [www.mylotto.co.nz](http://www.mylotto.co.nz).

## JACKPOTS

Lotto, Lotto Powerball and Lotto Strike are all able to jackpot if the 1st Division is not won. However there are limits to this:

- Lotto may not jackpot for more than four consecutive weeks
- Lotto Powerball may not jackpot for any subsequent draws after the 1st Division jackpot has reached \$30 million
- Lotto Strike may not jackpot for more than nine consecutive weeks

In the rare instance that one of these situations occurs a **'Must be won'** week will be called for the game concerned. This means that even if the top prize is not won, the jackpot money will be shared by the winners of the next highest winning division.

## BENEFITING NEW ZEALAND COMMUNITIES

Since the launch of Lotto in August 1987, New Zealand Lotteries has returned more than \$2.8 billion to communities through the Lottery Grants Board.

# THE GAME OF LOTTO

## LOTTO THE GAME

**Lotto is the Million Dollar game that's easy to play!**

Each Saturday night at 8pm on TV2, 6 numbers and 1 bonus number, are drawn from a possible 40 numbers. The aim is to match as many numbers as you can to those drawn from the Lotto ball machine. Just match a minimum of 3 numbers, plus the bonus ball and you're a winner. Match all 6 main balls and you win first division.

## HOW TO PLAY LOTTO

**To play Lotto just pick your own numbers by filling out a self select coupon or choose an easy Dip.**

### Choose your own numbers

All you have to do is mark any 6 numbers from 1-40. Each line costs 60c and you must play a minimum of 4 lines, which costs \$2.40.

### Easy Dips

Alternatively, you can ask your Lotto retailer for an easy Dip with numbers randomly selected by the computer.

### Multidraw

You can play your own number selections for up to 10 consecutive draws by buying a multidraw ticket.

### Lotto Combo

Lotto Combo is another great way to play. Instead of choosing 6 numbers, you can choose 8, 9 or 10 numbers. A Lotto Combo ticket gives you every possible combination of those numbers. You can also play Powerball with Combo simply by selecting a number from 1 to 10. For more information on Lotto Combo, read the Lotto Combo - How To Play brochure.

## WINNING WHEEL

**How does this work?**

Every Lotto ticket has a serial number. Each week one serial number is randomly drawn. The holder of the ticket with the winning serial number is invited to appear on the live Lotto draw to spin the Winning Wheel.

The Winning Wheel contains both cash and non-cash prizes with values from \$100,000 up to one top prize of \$1 million.

If you do not wish to appear on the live Lotto draw you can choose to take a guaranteed \$25,000, or nominate someone to appear and spin the Winning Wheel for you.

# LOTTO POWERBALL

**Want a way to multiply your winnings?**

Lotto Powerball is an extra number from 1-10 added to your Lotto line. If you win a prize with Lotto and have the winning Powerball number on the same line, you win the Powerball prize in addition to the Lotto prize.

The Powerball first division jackpot starts at \$4 million and keeps growing until it's won, or gets shared out in a 'Must Be Won' week.

Powerball costs 60 cents per line and must be added to a minimum of 4 Lotto lines.

### How to play Lotto Powerball

To play Lotto Powerball either fill out a Powerball coupon or play an easy Dip with Powerball. You can play the same Powerball numbers for up to 10 consecutive draws by buying a multidraw ticket.

# LOTTO STRIKE

**Want another way to win?**

Lotto Strike is a line of 4 numbers that can be added to any Lotto purchase. All you have to do is select any of the first 4 balls in the order you think they'll be drawn from the Lotto ball machine and you're a winner. If you select all of the first 4 in the correct order you win Strikes top division.

### How to play Lotto Strike

To play Lotto Strike either fill out a Strike coupon or buy a Strike Dip with your Lotto Ticket. You can also play the same Strike numbers for up to 10 consecutive draws by buying a multidraw ticket.
